	Question	Response
7.	What are the particular STRENGTHS of this course and the instructor?	Xu was always well prepared for lecture. She was always available during her assigned office hours and was very helpful. There were no tricks on her exams, just items she went over in lecture/homework assignments. I really enjoyed this course and it provided reasoning for many topics were have been taught in many other business/econ courses. In many courses we are taught, "This company is not profitable." In ECO 380 we learn the mathematics/reasoning for WHY a company is not profitable so I enjoyed how much this course has taught me.
